Grade Level Placement Guidelines

At SSIS we are proud to provide an individualized learning approach in our classrooms. This means that we do not teach at the class level but make every attempt to teach to the individual student. Because of this it is our policy to admit and place students after considering their age, current grade level, the outcome of our placement assessment and emotional maturity of the student. We also take into account the student's country of origin, current educational system and performance in this system.

Our Early Years program is designed to offer an engaging, challenging and developmentally appropriate curriculum for children at each age level. Students applying for our Pre-Nursery, Nursery, Pre-Kindergarten and Kindergarten classes will be placed in an age appropriate class.
